

VIJAY YADAV (RUSTOM)

Full Stack Web Developer | Generative & Agentic AI Developer

Kanpur, India | Phone: +91 7007141429 | Email: vijayyadav.official@outlook.com

GitHub: <https://github.com/Rustom-yadav> | LinkedIn: <https://linkedin.com/in/rustom-yadav-b31a7a300> | Portfolio: <https://rustom-portfolio.vercel.app>

SUMMARY

Full Stack Developer with hands-on experience building scalable MERN and Next.js applications, focused on solving real-world performance challenges. Specialized as a Generative and Agentic AI Developer, integrating modern AI solutions into robust backend systems. Proven ability to reduce database calls by ~30% through query optimization. Experienced in secure authentication, implementing CI/CD pipelines, and containerization to build reliable, production-ready systems.

SKILLS

Languages: JavaScript, Python

Frontend: React.js, Next.js, Redux Toolkit, ShadCN UI, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Databases & Services: PostgreSQL, MongoDB, Qdrant, Cloudinary, Nodemailer, Razorpay

AI Integration: Ollama, LLAMA, OpenAI, Gemini, Grok, RAG, LangChain, LangGraph, MCP Server

Concepts: System Design, Microservices, CI/CD, Caching, Rate Limiting, Async/Await

DevOps & Tools: Git, Docker, GitHub Actions, AWS, Vercel, Render, Postman

OS: Windows, Mac, Linux

Soft Skills: Clear Communication, Problem Solving, Team Collaboration, Adaptability, Hindi, English

PROJECTS

Mentovara - Full Stack EdTech Platform

[Live](#) | [GitHub](#)

Tech Stack: Next.js, Node.js, MongoDB, Docker, GitHub Actions, Razorpay, Nodemailer

- Developed a highly scalable full-stack EdTech platform featuring course creation, video streaming, and progress tracking.
- Containerized the application components using Docker to ensure consistent local development and reliable production deployments.
- Implemented an automated CI/CD pipeline leveraging GitHub Actions for seamless testing and deployment workflows.
- Integrated Razorpay payment gateway with full webhook support for robust and automated enrollment fulfillment.
- Engineered REST APIs with secure JWT-based authentication and a built-in SMTP login system using Nodemailer.
- Optimized backend performance by reducing database calls by ~30% and efficiently resolving CORS and media upload bottlenecks.

Video Streaming Backend API

[Live](#) | [GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, Cloudinary, JWT

- Built scalable REST APIs using Node.js and Express, implementing JWT authentication and secure routing.
- Improved overall API response time by ~20% through efficient MongoDB schema design and error handling.
- Integrated Cloudinary for seamless and optimized media handling and storage.

Portfolio

[Live](#) | [GitHub](#)

Tech Stack: Next.js, Tailwind CSS

- Architected a responsive, high-performance UI using Next.js and Tailwind CSS.
- Added dynamic project showcases and seamless theme switching capabilities.

CERTIFICATIONS

- Full Stack Generative AI and Agentic AI with Python - Udemy
- Frontend Development Libraries and Frameworks - freeCodeCamp
- JavaScript Certificate - freeCodeCamp
- Responsive Web Design - freeCodeCamp
